SPRINGFIELD, MO - Butler, Rosenbury & Partners (BR&P) is excited to announce that two more of its professionals have received LEED Accreditation, and one more interior designer is now a NCIDQ Certified!

Upon passing their recent exam, Structural Engineer and Vice President, John Miller, PE, SE, and Architect Brian Wells, AIA are now LEED Accredited Professionals. Miller has been with BR&P for ten years; Wells, two years.

LEED Professional Accreditation distinguishes building professionals with the knowledge and skills to successfully steward the integrated design and LEED certification process. LEED Accredited Professionals have demonstrated a thorough understanding of green building practices and principles and familiarity with LEED requirements, resources and processes.

Corey Sengstacken is now NCIDQ Certified after passing her National Council for Interior Design Qualification (NCIDQ) exam. Sengstacken has been with BR&P for six years.

According to the NCIDQ website, NCIDQ Certification "identifies the qualified practitioner, ensures recognition of expertise and assists development and self-improvement through the individual's understanding of a body of knowledge and set of professional standards" (The NCIDQ Examination and Certificate, 2009).

BR&P currently employs five, full-time LEED Accredited Professionals, and two NCIDQ Certified interior designers; one of which is a registered commercial interior designer.

BR&P has offices in Springfield, Mo. and Phoenix, Ariz. specializing in architecture, structural engineering, interior design, and landscape architecture with a staff of more than 50 design and administrative professionals. The company is currently celebrating its 30<sup>th</sup> year in business.
